

When you are ready to create a proof click 'File' then 'Create Proofs'

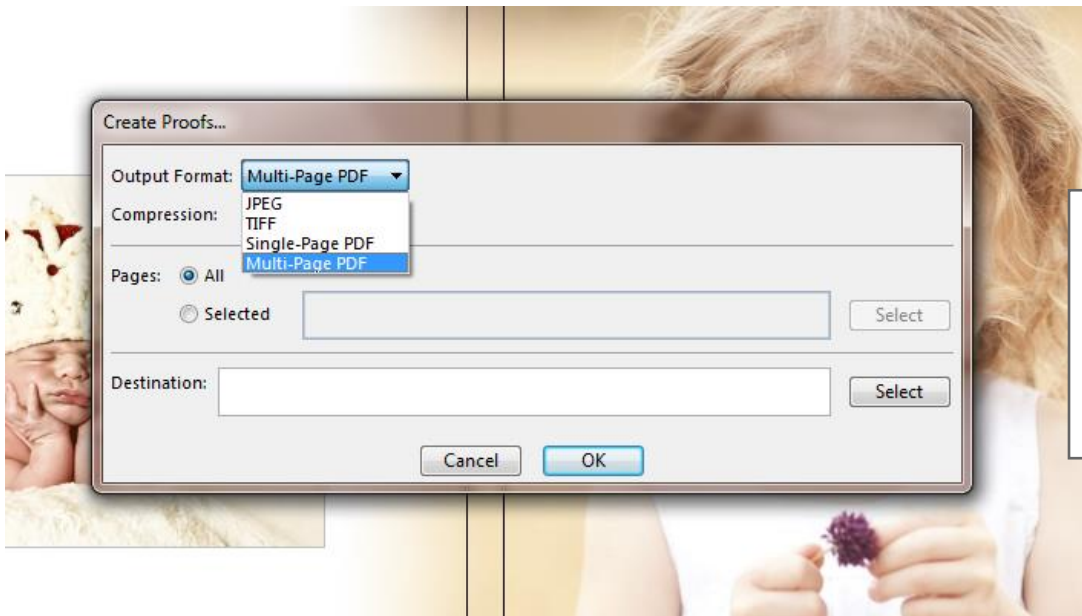

This warning box will then appear if there are any errors within your project.

It is your choice whether you want to correct these or not.

*We recommend you fix any errors before uploading your project to us.*

Then you click 'OK'

This box will then appear.

Click on the drop down menu and select Multi-Page PDF.

Choose the destination on your computer in which you want your PDF file to go.

Then click 'OK'. It should take less than a minute to load the PDF file.

This can then be printed or sent to your clients.
